Just FYI.

This is kinda interesting and maybe worth discussing.

A couple things we should probably have answers to before our meeting in PP -

- 1) Would we be willing to pursue enforcement against the nitrate polluters if we can identify them? Is that a topic we want to discuss with PP?
- 2) If PP refuses to sign an AOC with EPA or KDHE, is EPA willing to issue an AO (unilateral)? Are we prepared to give them a deadline for signing an AOC, or would that be premature for our Dec 12 meeting?

Hello Travis,

I work in the Drinking Water enforcement program at EPA R7, and work with Darrel Plummer on such matters at KDHE.

Stephanie Lindberg of R7 indicated that you might be able to help me obtain a copy of the WHP for Pretty Prairie.

If you can send me such a document, or tell me where I can find one, I'd be most appreciative.

FYI - I will be out of the office from 11/25-29.

Thanks for your help.
